

Mr. Lewis:

I see Wallace says he for the Negro - then he goes makes a speech in Nashville and says he is going to turn the schools back to "the people" - he means whitey and back to segregation. Talks about hospitals and such things. He says any of us who can buy a home where we want too, will be stopped when he gets to be where he has the power. He does a lot of talking but the Kluxers know where he really stands. He told my white friend - he can't do much now, but when I get to be president, watch out about mixing people up.

I have some people away from here asking if true most of us voted for him and I do not know what to say.

They say do not see why we vote hypocrite like Wallace.

I sure want vote him again - Mr. Kennedy would be alright but dead, so they say now Mr. Humphrey. I think we ought to vote for true people and not one who follows us all the time and when he has chance to help he goes way of Klux and White Citizens Club. I just wonder if you had done any about Wallace saying one thing but doing something different when he has chance. I ain't worrying very myself, but when my people write me I don't know what to write them back.

Disgusted voter.
