President Johnson's Political Executioners

The hatchet men of the Democratic party, both in the north as well as in the south, have apparently already sharpened their instruments of destruction and are awaiting orders to begin the political execution of President Lyndon B. Johnson. It is only necessary for one to keep his eyes on the daily press to know the direction in which the political winds are blowing. In the south, as well as the north, the principal reason given for the "get Johnson" conspiracy will be the Vietnam war. It should be plain, however, to even the most stupid among us, that the real reason behind the "get Johnson" movement is his effort to raise the overall status of the Negro citizens of this nation. Thus the Vietnam war will only be used as the curtain behind which the dirty work will be plotted and carried out.

As one watches the moves of the political executioners, within and out the Democratic party, it will be interesting to note how many Negroes of consequence will be sucked into aiding and abetting the heinous attempt to politically execute the greatest presidential benefactor the Negro has had since Abraham Lincoln. What Lincoln did in freeing Negroes from slavery cost him in his life.

Certainly no loyal American citizen

of sound mind is happy at the cost of the Vietnam war in American lives and dollars. We think, however, there is more at stake than at first meets the eye of the conflict in which this nation is now engaged, as is so plainly brought out in an article entitled "Vietnam The Charges And The Facts," appearing in the October issue of the Readers Digest.

As far back as human history records men who have gone to the rescue or tried to befriend the down-trodden have usually had to pay — often with their lives. It was so 2,000 years ago when the Son of God came to this earth and declared for a truth that "God is no respecter of person." The words had hardly fallen from His lips before the high priests and other holier than thou gangsters set in motion machinery for His death and did not rest until they had crucified Him, under a phoney charge of blasphemy. It so happens, however, that since that black and dirty deed the world has been unable to get rid of His name.

So the nation may witness in 1968, the political crucifixion of one of the greatest presidents the nation has ever had and this fact will be attested to by the indestructable determination of history to record it so.
