TO: PROJECT DIRECTORS OF 1B PROJECTS IN ALABAMA

We have been informed that the Manpower Administration is reorganizing. The reorganization calls for closing the Montgomery Area Office of the Manpower Administration, which in turn will curtail services rendered by that office to your project. We would appreciate very much if you are in accordance with the following to contact your Congressman and Senators in Alabama protesting the closing of the Montgomery Area Office for the following reasons:

1. It would eliminate five (5) Civil Service positions in Alabama and curtail the services to your project.
2. By eliminating the office it will delay your payments by the late processing of your invoices.
3. The staff of the Manpower Administration in this program will not be readily available for service for your project.
4. The economical operation and administration costs will be increased if this program was serviced out of the Regional Office in Atlanta.
5. That Alabama will lose professional and clerical positions that will not contribute to the economical growth of the State.
6. Emphasize the need of the service and to eliminate it would curtail the limit of the services to your project.
