

Tommie Miller has a failing grade.

- Closed down Ramer High School, forcing students to catch the bus before dawn and get home after dark.
- Refused to spend one cent on minority contractors and architects for new school construction. White firms got all the business.
- Spent 2/3 of school construction funds on East Side schools, spending \$29 million more on schools out East than on the West Side.
- Failed on his promise to build Madison Park school.

***Why did Tommie Miller
refuse to hire black firms
to build Montgomery's schools?***

***We need a change.
It's time to say no to Tommie Miller.***
